

Company Profile

CNC MACHINING SOLUTIONS

CNC Turning | CNC Milling | Multi Axis Machining

Manufacturing Capacity

MULTI AXIS MACHINING

CNC TURNING & MILLING

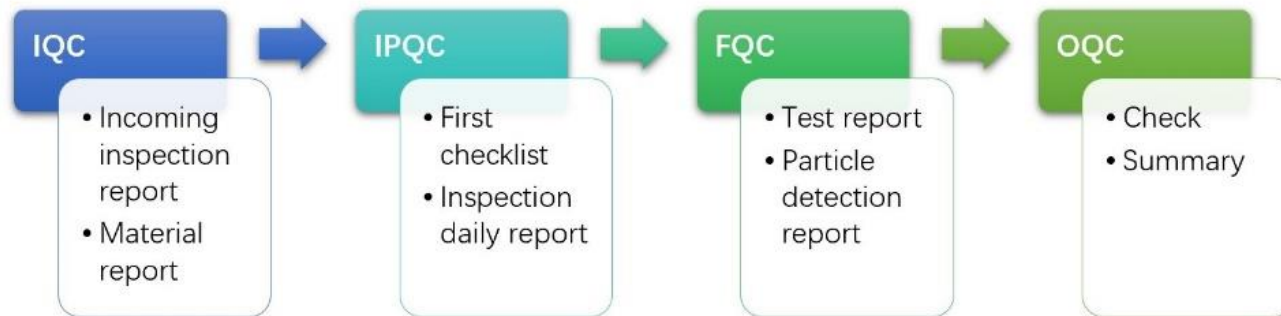

DIE CASTING

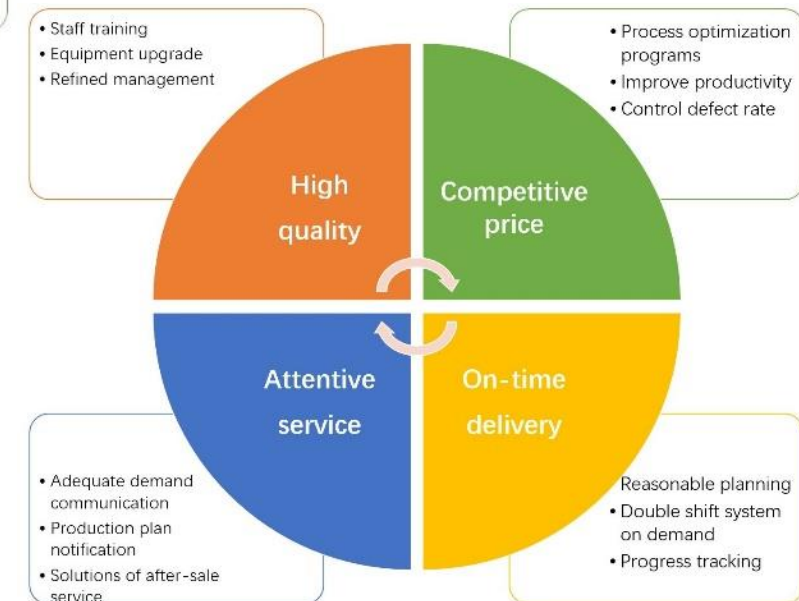

METAL STAMPING

Management Ability

In order to achieve more effective management, we got the Quality Management System. We make specific rules and regulations for every process, such as material purchasing, manufacturing, AQL inspection and even export handling.

With the commitment and goal of high quality, competitive price, on time delivery and reliable relationship with our customers, we are continually expanding our market worldwide.

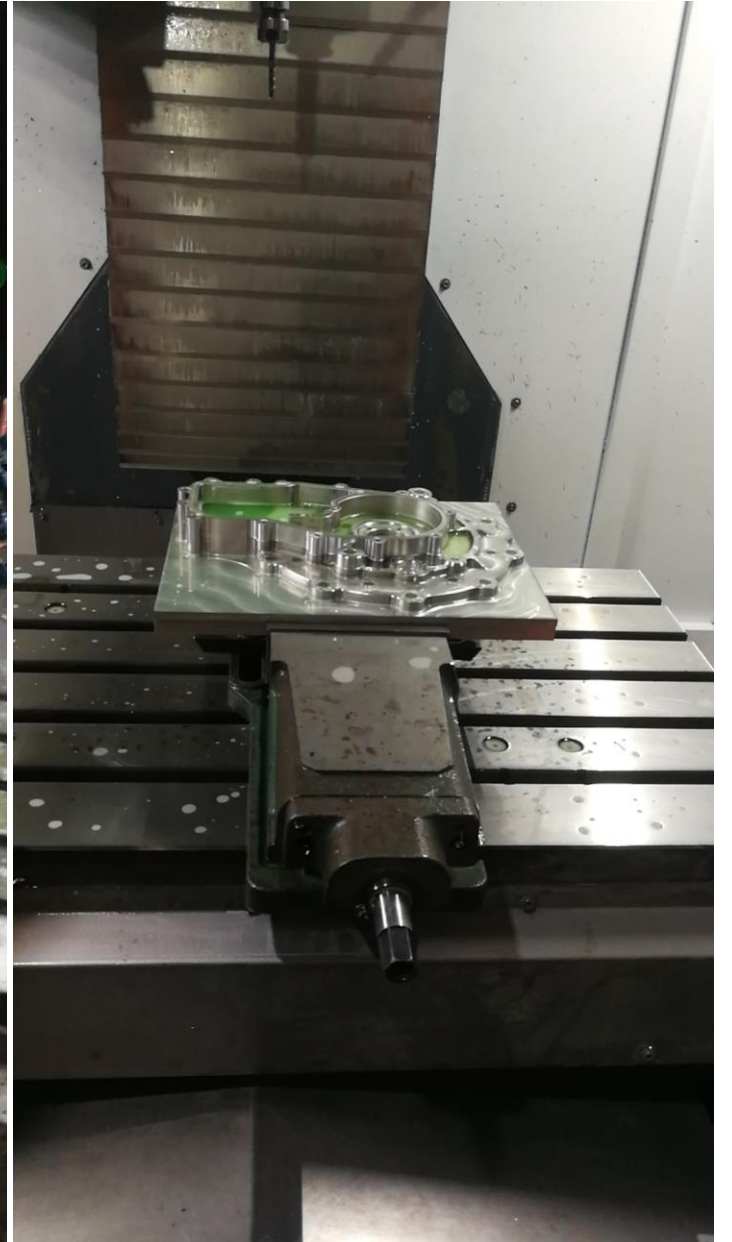

Surface Finishing

We can provide related treatment services on demand as complementary. Such as sand blasting, anodizing, galvanizing, painting, chrome plating, heat treatment and so on.
